THE WORLDS MOST POPULAR BUSINESS TURBO-PROP

The King Air B200 is the most widely known and bestselling turboprop aircraft globally due to its versatility and reliability. It is highly sought after due to its long standing history of safety & performance, and is in demand for business and corporate aviation flights as well as personal leisure trips. The King Air B200 offers an unmatched combination of comfort, speed and value. Due to its small airfield capabilities, airport options are increased which allows better access to requested destinations.
