Passengers:

Take all of this:

5th passenger sits in the seat normally occupied by the co-pilot

Passengers – 4 or 5

Pilots – 1 or 2

Baggage – 1.7cu

Cruise Speed – 340kts

Range – 2000km

Altitude – 40,000ft

Cabin Length – 3.10m

Cabin Height – 1.40m

Cabin Width – 1.45m

REDEFINED VERSATILITY

The Mustang is Cessna's entry-level private jet. You can choose the aircraft to be flown with one or two pilots. With two pilots at the helm there are four passenger seats available and with one pilot the Mustang can carry five passengers with the fifth passenger sitting in the seat normally occupied by the co-pilot. The Mustang has a maximum range of 1,150 nautical miles and is very well suited to domestic flights within New Zealand.
