Citation Mustang

The Cessna Citation Mustang sets the standard in very light jets, and was the first light jet certified by the Civil Aviation Authority. It is remarkably versatile, and the aerodynamic design and advanced technology enables impressive performance at affordable cost. It allows for access to smaller regional airports, and has the ability to cruise over the weather. The interior of the Mustang is well designed and spacious, with luxury leather seating in club formation, and multizone climate control allows optimal passenger and crew comfort. The Mustang can comfortably seat 4 passengers with luggage.

Specifications:

Passengers: Four
Crew: Single Pilot. Second Pilot By Request.
No of Flight Attendants: 0
Cruise Speed: 340 Knots
